## Mechanical Specification Options

#### General

The J4HP50 is fully charged from the factory. This unit is designed to operate at outdoor ambient temperatures as high as 115°F. Cooling capacities are matched with air handlers and furnace coils that are AHRI certified. The unit is certified to ETL. Exterior is designed for outdoor application.

#### Casing

Unit casing is constructed of heavy gauge, Galvanized steel and painted with a weatherresistant powder paint on all grilles, panels, pre-paint on all other panels. And had 500hours salt spray tested.

#### **Refrigerant Controls**

Refrigeration system controls include condenserfan, compressor contactor.

#### Compressor

Features include low vibration and noise.

#### **Condenser Coil**

The outdoor coil provides low airflow resistance and efficient heat transfer. The coil is protected on all four sides by grille panels.

#### Optional accessories Liquid line drier—

It is used to filter out impurities and water in the system, ensures system clean and dry.

**OXBOX** has a policy of continuous product and product data improvement and it reserves the right to change design and specifications without notice.
