

A GLOBAL CLIMATE INNOVATOR

Through our strategic brands Trane® and Thermo King®, and portfolio of innovative products and services, we bring efficient and sustainable climate solutions to buildings, homes and transportation.

We are driven to solve sustainability challenges through innovation in the heating and cooling industries.

Our Strategy: To serve attractive end markets driven by global megatrends of urbanization, natural resource scarcity, climate change and shifting demographics.

We are building on our strengths, focusing on sustainable businesses, investing in our people, and empowering through a proven business operating system. Trane Technologies:

OUR 2030 SUSTAINABILITY COMMITMENTS

Designed to create positive impact for society and to enable a premier performing company:

THE GIGATON CHALLENGE

Reducing customers' carbon emissions by one gigaton by the year 2030.

LEADING BY EXAMPLE

Committing to carbon-neutral operations and zero waste to landfills by 2030, and pledging to give back more water than used by the company in water stressed areas.

OPPORTUNITY FOR ALL

Focusing opportunity for all in our workplace, with goals to achieve gender parity in leadership, workforce diversity reflecting the company's communities, and investing in education and workforce development, and increased access to housing, cooling comfort, healthy food and wellness.
