Trane Technologies Essential Business Products & Services

Trane

Our Trane products heat, cool and ventilate essential spaces like hospitals, pharmacies, nursing homes, supermarkets, homes and emergency services. For the latest in how Trane is responding to COVID-19: <https://www.trane.com/commercial/north-america/us/en/covid-19-update.html>

Additionally, provided below are more specific healthcare examples utilizing Trane products and services that should be helpful in discussions with government authorities around your company's recognition as an essential business. Your company is a critical member of the overall supply chain supporting Trane and the essential businesses we together serve.
